

**PEST COUNTY
GOVERNMENT OFFICE**

File number:	PE-06/KTF/30925-12/2020.	Subject: Kistarcsa, Külső Raktár krt. 11.
Official in-charge:	Bernadett Laczkóné Szabó	(topographical lot number no.: 5401);
	Júlia Lázár	waste management licence issued
	Orsolya Kapronczay	to the ELTEX Ltd. for hazardous and
	Zsombor Berényi	non-hazardous waste collection at
	Lajos Katkó	the business site, trading,
		pre-processing and utilisation
Phone:	(06-1)478-4400	REFERENCE NO: -
		Attachment: -

DECISION

I modify

the waste management licence (hereinafter referred to: the Licence) issued under number PE-06 / KTF / 12654-12 / 2018 and modified under number PE-06/KTF/12654- 13/2018 by the regionally competent Authority for Environmental Protection and Nature Conservation for the **ÉLTEX Kereskedelmi és Fuvarozó Kft.** (Registered office: 4028 Debrecen, Wesszprémi utca 2. A. ép. 2 .; premises: 2143 Kistarcsa, Külső Raktár krt 11. (Lot number: 5401); KÜJ / Environmental Customer Identification number: 100 393 875; KTJ / Environmental Regional Identification number: 101 903 449, KSH / Central Statistical Code: 11148177-4690-113-09; hereinafter referred to: the Licence Holder) to application, leaving its other provisions unchanged,

as follows:

1. I delete the tables in the points of the Licence "1.1 / Non-hazardous waste that can be collected at the site and involved in commercial activities:", "1.2./ Non-hazardous waste that can be pre-treated at the site from the non-hazardous waste that can be collected at the site and are involved in commercial activities up to the quantities specified in point 1.1./", "1.3./ Non-hazardous waste that can be used at the site from the non-hazardous waste that can be collected at the site and are involved in commercial activities up to the quantities specified in point 1.1./", "1.4 / Hazardous waste that can be collected at the site and is involved in commercial activities:", "1.5 / Hazardous waste that can be pre-treated at the site from the hazardous waste that can be collected at the site and are involved in commercial activities up to the quantities specified in point 1.4./", "hazardous waste that can be used at the site from the hazardous waste that can be collected at the site and are involved in commercial activities up to the quantities specified in point 1.4./" and I replace them with the following tables:

/ Non-hazardous non-metallic wastes that can be collected at the site, is involved in commercial activity and can be pre-treated:

Identification code	Description	Quantity (tons/year)
02 01 01	sludge from washing and cleaning	
02 01 04	waste plastics (except packaging)	
02 01 07	wastes from forestry	
02 01 09	agrochemical waste other than those mentioned in 02 01 08	
02 01 99	unspecified waste

Identification code	Description	Quantity (tons/year)
02 02 03	materials unsuitable for consumption or processing	
02 02 04	sludges from <i>on-site</i> effluent treatment	
02 03 01	sludges from washing, cleaning, peeling, centrifuging and separation	
02 03 02	Waste from preserving agents	
02 03 03	wastes from solvent extraction	
02 03 04	materials unsuitable for consumption or processing	
02 03 05	sludges from <i>on-site</i> effluent treatment	
02 03 99	unspecified waste	
02 04 02	off-specification calcium carbonate	
02 04 03	sludges from <i>on-site</i> effluent treatment	
02 05 01	materials unsuitable for consumption or processing	
02 05 02	sludges from <i>on-site</i> effluent treatment	
02 06 01	materials unsuitable for consumption or processing	
02 06 02	wastes from preserving agents	
02 06 03	sludges from <i>on-site</i> effluent treatment	
02 07 01	wastes from washing, cleaning and mechanical reduction of raw materials	
02 07 02	wastes from spirits distillation	
02 07 03	wastes from chemical treatment	
02 07 04	materials unsuitable for consumption or processing	
02 07 05	sludges from <i>on-site</i> effluent treatment	
03 01 01	waste bark and cork	
03 01 05	sawdust, shavings, cuttings, wood, particle board and veneer, which is different from 03 01 04	
03 01 99	unspecified waste	
03 02 99	unspecified wood preservative	
03 03 01	waste bark and wood	
03 03 02	green liquor sludge from recovery of cooking liquor	
03 03 05	de-inking sludges from paper recycling	
03 03 07	mechanically separated rejects from pulping of waste paper and cardboard	
03 03 08	wastes from sorting of paper and cardboard destined for recycling	
03 03 09	lime mud waste	
03 03 10	fibre rejects, fibre-, filler- and coating-sludge from mechanical separation	
03 03 11	sludge from <i>on-site</i> effluent treatment other than those mentioned in 03 03 10	
03 03 99	wastes not otherwise specified	
04 01 02	liming waste	
04 01 04	tanning liquor containing chromium	

Identification code	Description	Quantity (tons/year)
04 01 05	tanning liquor free of chromium	
04 01 06	sludge from on-site effluent treatment containing chromium	
04 01 07	sludge from on-site effluent treatment non containing chromium	
04 01 08	waste tanned leather (blue sheeting's, shavings, cuttings, buffing dust) containing chromium	
04 02 09	wastes from composite materials (impregnated textile, elastomer, plastomer)	
04 02 10	organic matter from natural products (for example grease, wax)	
04 02 15	wastes from finishing other than those mentioned in 04 02 14	
04 02 17	dye stuffs and pigments other than those mentioned in 04 02 16	
04 02 21	wastes from unprocessed textile fibres	
04 02 22	wastes from processed textile fibres	
05 01 10	sludge from <i>on-site</i> effluent treatment other than those mentioned in 05 01 09	
05 01 13	boiler feedwater sludge	
05 01 14	waste from cooling columns	
05 01 16	sulphur-containing wastes from petroleum desulphurisation	
05 01 17	bitumen	
05 06 04	waste from cooling columns	
05 07 02	wastes containing sulphur	
06 01 99	wastes not otherwise specified	
06 02 99	wastes not otherwise specified	
06 03 14	solid salts and solutions other than those mentioned in 06 03 11 and in 06 03 13	
06 03 99	wastes not otherwise specified	
06 05 03	sludge from <i>on-site</i> effluent treatment other than those mentioned in 06 05 02	
06 06 03	wastes containing sulphide compounds other than those mentioned in 06 06 02	
06 06 99	wastes not otherwise specified	
06 07 99	wastes not otherwise specified	
06 08 99	wastes not otherwise specified	
06 09 02	phosphorous slag	
06 09 04	calcium-based reaction wastes other than those mentioned in 06 09 03	
06 09 99	wastes not otherwise specified	
06 10 99	wastes not otherwise specified	
06 11 01	calcium-based reaction wastes from titanium dioxide production	
06 11 99	wastes not otherwise specified	
06 13 03	carbon black	
06 13 99	wastes not otherwise specified	
07 01 12	sludge from <i>on-site</i> effluent treatment other than those mentioned in 07 01 11	
07 01 99	wastes not otherwise specified	
07 02 12	sludge from <i>on-site</i> effluent treatment other than those mentioned in 07 02 11	
07 02 13	waste plastic	

Identification Code	Description	quantity (tons/year)
07 02 15	wastes from additives other than those mentioned in 07 02 14	
07 02 17	waste containing silicones other than those mentioned in 07 02 16	
07 02 99	wastes not otherwise specified	
07 03 12	sludge from <i>on-site</i> effluent treatment other than those mentioned in 07 03 11	
07 03 99	wastes not otherwise specified	
07 04 12	sludge from <i>on-site</i> effluent treatment other than those mentioned in 07 04 11	
07 04 99	wastes not otherwise specified	
07 05 12	sludge from <i>on-site</i> effluent treatment other than those mentioned in 07 05 11	
07 05 14	solid wastes other than those mentioned in 07 05 13	
07 05 99	wastes not otherwise specified	
07 06 12	sludge from <i>on-site</i> effluent treatment other than those mentioned in 07 06 11	
07 06 99	wastes not otherwise specified	
07 07 12	sludge from <i>on-site</i> effluent treatment other than those mentioned in 07 07 11	
07 07 99	wastes not otherwise specified	
08 01 12	wastes from paint or varnish removal other than those mentioned in 08 01 11	
08 01 14	sludge from paint or varnish other than those mentioned in a 08 01 13	
08 01 16	aqueous sludge containing paint or varnish other than those mentioned in 08 01 1	
08 01 18	wastes from paint or varnish removal other than those mentioned in 08 01 17	
08 01 20	aqueous suspensions containing paint or varnish other than those mentioned in 08 01 19	
08 01 99	wastes not otherwise specified	
08 02 01	waste coating powders	
08 02 02	aqueous sludge containing ceramic materials	
08 02 03	aqueous suspensions containing ceramic materials	
08 02 99	wastes not otherwise specified	
08 03 07	aqueous sludge containing ink	
08 03 08	aqueous liquid waste containing ink	
08 03 13	waste ink other than those mentioned in 08 03 12	
08 03 15	ink sludge other than those mentioned in 08 03 14	
08 03 18	waste printing toner other than those mentioned in 08 03 17	
08 03 99	wastes not otherwise specified	
08 04 10	waste adhesives and sealants other than those mentioned in 08 04 09	
08 04 12	adhesive and sealant sludge other than those mentioned in 08 04 11	
08 04 14	aqueous sludge containing adhesives or sealants other than those mentioned in 08 04 13	
08 04 16	aqueous liquid waste containing adhesives or sealants other than those mentioned in 08 04 15	
08 04 99	wastes not otherwise specified	
09 01 07	photographic film and paper containing silver or silver compounds	
09 01 08	photographic film and paper free of silver or silver compounds	
09 01 10	single-use cameras without batteries	

Identification code	Description	Quantity (tons/year)
09 01 12	single-use cameras containing batteries other than those mentioned in 09 01 11	
09 01 99	wastes not otherwise specified	
1001 01	bottom ash, slag and boiler dust (excluding 10 01 04)	
10 01 02	coal fly ash	
10 01 03	fly ash from peat and untreated wood	
10 01 05	calcium-based reaction wastes from flue-gas desulphurisation in sludge form	
10 01 07	calcium-based reaction wastes from flue-gas desulphurisation in sludge form	
1001 15	Bottom ash, slag and boiler dust from co-incineration other than those mentioned in 10 01 14	
10 01 17	fly ash from incineration other than those mentioned in 10 01 16	
1001 19	wastes from gas cleaning other than those mentioned in 10 01 05, 10 01 07 and 10 01 18	
1001 21	sludge from <i>on-site</i> effluent treatment other than those mentioned in 10 01 20	
10 01 23	aqueous sludge from boiler cleansing other than those mentioned in 10 01 22	
10 01 24	sands from fluidised beds	
10 01 25	wastes from fuel storage and preparation of coal-fired power plants	
10 01 26	wastes from cooling-water treatment	
10 01 99	wastes not otherwise specified	
10 02 01	wastes from the processing of slag	
10 02 02	unprocessed slag	
10 02 08	solid waste from gas treatment other than those mentioned in 10 02 07	
10 02 10	mill scales	
10 02 12	wastes from cooling-water treatment other than those mentioned in 10 02 11	
10 02 14	sludge and filter cakes from gas treatment other than those mentioned in 10 02 13	
10 02 15	other sludge and filter cakes	
10 02 99	wastes not otherwise specified	
10 03 02	anode scraps	
10 03 05	waste alumina	
10 03 16	dross and skimming other than those mentioned in 10 03 15	
10 03 18	carbon-containing wastes from anode manufacture other than those mentioned in 10 03 17	
10 03 20	flue-gas dust other than those mentioned in 10 03 19	
10 03 22	other particulates and dust (including ball-mill dust) other than those mentioned in 10 03 21	
10 03 24	solid waste from gas treatment other than those mentioned in 10 02 23	
10 03 26	sludge and filter cakes from gas treatment other than those mentioned in 10 03 25	
10 03 28	wastes from cooling-water treatment other than those mentioned in 10 03 27	

Identification code	Description	Quantity (tons/year)
10 03 30	wastes from treatment of salt slags and black drosses other than those mentioned in 10 03 29	
10 03 99	wastes not otherwise specified	
10 04 10	wastes from cooling-water treatment other than those mentioned in 10 04 09	
10 04 99	wastes not otherwise specified	
10 05 04	other particulates and dust	
10 05 09	wastes from cooling-water treatment other than those mentioned in 10 05 08	
10 05 11	dross and skimming other than those mentioned in 10 05 10	
10 05 99	wastes not otherwise specified	
10 06 04	other particulates and dust	
10 06 10	wastes from cooling-water treatment other than those mentioned in 10 04 09	
10 06 99	wastes not otherwise specified	
10 07 03	solid waste from gas treatment	
10 07 04	other particulates and dust	
10 07 05	sludge and filter cakes from gas treatment	
10 07 08	wastes from cooling-water treatment other than those mentioned in 10 07 07	
10 07 99	wastes not otherwise specified	
10 08 04	solid particulates and dust	
10 08 13	carbon-containing wastes from anode manufacture other than those mentioned in 10 08 12	
1008 14	anode scraps	
10 08 16	flue-gas dust other than those mentioned in 10 08 15	
10 08 18	sludge and filter cakes from flue-gas treatment other than those mentioned in 10 08 17	
10 08 20	wastes from cooling-water treatment other than those mentioned in 10 08 19	
10 08 99	wastes not otherwise specified	
10 09 03	furnace slag	
10 09 06	casting cores and moulds which have not undergone pouring other than those mentioned in 10 09 05	
10 09 08	casting cores and moulds which have undergone pouring other than those mentioned in 10 09 07	
10 09 10	flue-gas dust other than those mentioned in 10 09 09-től	
10 09 12	other particulates other than those mentioned in 10 09 11	
10 09 14	waste binders other than those mentioned in 10 09 13	
10 09 16	waste crack-indicating agent other than those mentioned in 1009 15	
10 09 99	wastes not otherwise specified	
10 10 03	furnace slag	
10 10 06	casting cores and moulds which have not undergone pouring other than those mentioned in 10 10 05	
10 10 08	casting cores and moulds which have undergone pouring other than those mentioned in 10 10 07	
10 10 10	flue-gas dust other than those mentioned in 10 10 09	
10 10 12	other particulates other than those mentioned in 10 10 11	
10 10 14	waste binders other than those mentioned in 10 10 13

Identification code	Description	Quantity (tons/year)
10 10 16	waste crack-indicating agent other than those mentioned in 10 10 15	
10 10 99	wastes not otherwise specified	
10 11 03	Waste of glass-based fibrous materials	
10 11 05	other particulates and dust	
10 11 10	waste preparation mixture before thermal processing, other than those mentioned in 10 11 09	
10 11 12	Waste glass other than those mentioned in 10 11 11	
1011 14	glass-polishing and -grinding sludge other than those mentioned in 10 11 13	
10 11 16	solid wastes from flue-gas treatment other than those mentioned in 10 11 15	
10 11 18	sludge and filter cakes from flue-gas treatment other than those mentioned in 10 11 17	
10 11 20	solid wastes from on-site effluent treatment containing hazardous substances which is different from 10 11 19	
10 11 99	wastes not otherwise specified	
10 1201	waste preparation mixture before thermal processing	
10 1203	solid particulates and dust	
10 1205	sludge and filter cakes from gas treatment	
10 12 06	discarded moulds	
1012 08	waste ceramics, bricks, tiles and construction products (after thermal processing)	
10 12 10	solid waste from gas treatment other than those mentioned in 10 12 09	
10 12 12	wastes from glazing other than those mentioned in 10 12 11	
10 12 13	sludge from <i>on-site</i> effluent treatment	
10 12 99	wastes not otherwise specified	
10 1301	waste preparation mixture before thermal processing	
10 13 04	wastes from calcination and hydration of lime	
1013 06	solid particulates and dust (with the exception of 10 13 12 and 10 13 13}	
1013 07	sludge and filter cakes from gas treatment	
10 13 10	wastes from asbestos-cement manufacture other than those mentioned in 10 13 09	
10 13 11	wastes from cement-based composite materials other than those mentioned in 10 13 09 and 10 13 10	
10 1313	waste from gas treatment other than those mentioned in 10 13 12	
10 13 14	waste concrete and concrete sludge	
10 1399	wastes not otherwise specified	
11 01 10	sludge and filter cakes other than those mentioned in 11 01 09	
11 01 12	aqueous rinsing liquids other than those mentioned in 11 01 11	
11 01 14	degreasing wastes other than those mentioned in 11 01 13	
11 01 99	wastes not otherwise specified	
11 02 03	wastes from the production of anodes for aqueous electrolytical processes	
11 02 06	wastes from copper hydrometallurgical processes other than those mentioned in 11 02 05	
11 02 99	wastes not otherwise specified	
11 05 99	wastes not otherwise specified	
12 01 05	plastics shavings and turnings	
12 01 13	welding wastes	

Identification code	Description	Quantity (tons/year)
1201 15	machining sludge other than those mentioned in 12 01 14	
12 01 17	waste blasting material other than those mentioned in 12 01 16	
12 01 21	spent grinding bodies and grinding materials other than those mentioned in 12 01 20	
1501 01	paper and cardboard packaging	
15 01 02	plastic packaging waste	
15 01 03	wooden packaging	
15 01 05	mixed composition composite packaging waste	
15 01 06	other mixed packaging	
15 01 07	glass packaging	
15 01 09	textile packaging	
15 02 03	absorbents, filter materials, wiping cloths and protective clothing other than those mentioned in 15 02 02	
16 01 03	waste tyres	
1601 12	friction pad other than those mentioned in 16 01 11	
1601 15	antifreeze fluids other than those mentioned in 16 01 14	
1601 19	plastics	
16 01 20	glass	
16 01 22	components not otherwise specified	
16 01 99	wastes not otherwise specified	
16 03 04	inorganic wastes other than those mentioned in 16 03 03	
16 03 06	organic wastes other than those mentioned in 16 03 05	
16 05 05	gases in pressure containers other than those mentioned in 16 05 04	
16 05 09	discarded chemicals other than those mentioned in 16 05 06-tól, in 16 05 07 or 16 05 08	
1610 02	aqueous liquid wastes other than those mentioned in 16 10 01	
16 10 04	aqueous concentrates other than those mentioned in 16 10 03	
16 11 02	carbon-based linings and refractories from metallurgical processes others than those mentioned in 16 11 01	
16 11 04	other linings and refractories from metallurgical processes other than those mentioned in 16 11 03	
16 11 06	linings and refractories from non-metallurgical processes others than those mentioned in 16 11 05	
17 01 01	concrete	
17 01 02	brick	
17 01 03	tiles and ceramics	
17 01 07	mixtures of concrete, bricks, tiles and ceramics other than those mentioned in 17 01 06	
17 02 01	wood	
17 02 02	glass	
17 02 03	plastic	
17 03 02	bituminous mixtures other than those mentioned in 17 03 01	
17 05 04	soil and stones other than those mentioned in 17 05 03	
17 05 06	dredging spoil other than those mentioned in 17 05 05	
17 05 08	track ballast other than those mentioned in a 17 05 07-től	
17 06 04	insulation materials other than those mentioned in 17 06 01 and 17 06 03	
17 08 02	gypsum-based construction other than those mentioned in 17 08 01	

Identification code	Description	Quantity (tons/year)
17 09 04	mixed construction and demolition wastes other than those mentioned in 17 09 01, 17 09 02- and 17 09 03	
18 01 04	wastes whose collection and disposal is not subject to special requirements in order to prevent infection (for example dressings, plaster casts, linen, disposable clothing, diapers)	
18 01 07	chemicals other than those mentioned in 18 01 06	
18 01 09	medicines other than those mentioned in 18 01 08	
18 02 03	wastes whose collection and disposal is not subject to special requirements in order to prevent infection	
18 02 06	medicines other than those mentioned in 18 02 05	
18 02 08	medicines other than those mentioned in 18 02 07	
1901 12	bottom ash and slag other than those mentioned in 19 01 11	
19 02 10	combustible waste other than those mentioned in 19 02 08 and 19 02 09	
19 08 09	grease and oil mixture from oil/water separation containing only edible oil and fats	
19 08 12	sludge from biological treatment of industrial waste water other than those mentioned in 19 08 11	
19 08 14	sludge from other treatment of industrial waste water other than those mentioned in 19 08 13	
19 08 99	wastes not otherwise specified	
19 09 01	solid waste from primary filtration and screenings	
19 09 02	sludge from water clarification	
19 09 03	sludge from decarbonation	
19 09 04	spent activated carbon	
19 09 05	saturated or spent ion exchange resins	
19 09 06	solutions and sludge from regeneration of ion exchangers	
19 10 04	fluff-light fraction and dust other than those mentioned in 19 10 03	
19 10 06	other fractions other than those mentioned in 19 10 05	
19 11 06	sludge from <i>on-site</i> effluent treatment which is different from 19 11 05	
19 1201	paper and cardboard	
19 12 04	plastic and rubber	
19 12 05	glass	
19 12 07	wood other than those mentioned in 19 12 06	
19 12 08	textiles	
19 12 09	minerals (e.g. sand, stones)	
19 12 10	combustible waste (refuse derived fuel)	
191212	their wastes (including mixtures of materials) from mechanical treatment of wastes other than those mentioned in 19 12 11	
20 01 01	paper and cardboard	
20 01 02	glass	
20 01 08	biodegradable kitchen and canteen waste	
20 01 10	clothing	
20 01 11	textiles	
20 01 25	edible oils and fats	
20 01 28	paint, inks, adhesives and resins other than those mentioned in 20 01 27	
20 01 30	detergents other than those mentioned in 20 01 29	
20 01 32	medicines other than those mentioned in 20 01 31	

Environmental Protection and Nature Conservation General Department

1072 Budapest, Nagy Diófa utca 10-12.

Identification code	Description	Quantity (tons/year)
20 01 38	wood other than that mentioned in 20 01 37	
20 01 39	plastics	
20 01 41	wastes from chimney sweeping	
20 01 99	other fractions not otherwise specified	
20 02 01	biodegradable waste	
20 02 02	soil and stones	
20 02 03	other non-biodegradable wastes	
20 03 02	waste produced on market	
20 03 03	street-cleaning residues	
20 03 04	septic tank sludge	
20 03 07	bulky waste	
Maximum total:		50 000

1.2. / Non-hazardous metal or metal-containing waste that can be collected at site or involved in trade activities:

Identification code	Description	Quantity (tons/year)
02 01 10	metal waste	
06 03 16	metallic oxides other than those mentioned in 06 03 15	
06 04 99	wastes not otherwise specified	
10 05 01	slags from primary and secondary production	
10 06 01	slags from primary and secondary production	
10 06 02	dross and skimming from primary and secondary production	
10 07 01	slags from primary and secondary production	
10 07 02	dross and skimming from primary and secondary production	
10 08 09	other slags	
10 08 11	dross and skimming other than those mentioned in 10 08 10	
11 05 01	hard zinc	
11 05 02	zinc ash	
12 01 01	ferrous metal filings and turnings	
12 01 02	ferrous metal dust and particles	
12 01 03	non-ferrous metal filings and turnings	
12 01 04	on-ferrous metal dust and particles	
12 01 99	wastes not otherwise specified	
15 01 04	metallic packaging	
1601 16	tanks for liquefied gas	
1601 17	ferrous metals	
1601 18	non-ferrous metals	
16 02 14	discarded equipment other than those mentioned in 16 02 09 to 16 02	
16 02 16	components removed from discarded equipment other than those mentioned in 16 02 15	
16 06 04	alkaline batteries (except 16 06 03)	
16 06 05	other batteries and accumulators	
16 08 01	spent catalysts containing gold, silver, rhenium, rhodium, palladium, iridium or platinum (except 16 08 07)	

Identification code	Description	Quantity (tons/year)
16 08 03	spent catalysts containing transition metals or transition metal compounds other than those mentioned in 16 08 02	
16 08 04	spent fluid catalytic cracking catalysts (except 16 08 07)	
17 04 01	copper, bronze, brass	
17 04 02	aluminium	
17 04 03	lead	
17 04 04	zinc	
17 04 05	iron and steel	
17 04 06	tin	
17 04 07	mixed metals	
17 04 11	cables other than those mentioned in 17 04 10	
19 01 02	ferrous materials removed from bottom ash	
19 10 01	iron and steel waste	
19 10 02	non-ferrous metal waste	
19 12 02	ferrous metal	
19 12 03	non-ferrous metals	
20 01 34	batteries and accumulators other than those mentioned in 20 01 33	
20 01 36	discarded electrical and electronic equipment other than those mentioned in 20 01 21, 20 01 23 and 20 01 35	
20 01 40	metals	
Maximum total:		24 950

1.3. / To the extent of quantities specified in Sections 1.1. / and 1.2. / the non-hazardous waste devoted to recovery or reuse at the site from among the non-hazardous waste allowed to be collected at site and involved in trade:

Identification code	Description	Quantity (tons/year)
02 01 04	waste plastics (except packaging))	
07 02 13	waste plastics	
10 08 09	other slags	
1008 11	dross and skimming other than those mentioned in 10 08 10	
12 01 04	non-ferrous metal dust and particles	
12 01 05	plastics shavings and turnings	
15 01 02	plastic packaging wastes	
15 01 06	other mixed packaging waste	
16 01 18	non-ferrous metals	
16 01 19	plastic	
16 02 14	discarded equipment other than those mentioned in 16 02 09 to 16 02 13	
16 02 16	components removed from discarded equipment other than those mentioned in 16 02 15	
16 03 04	inorganic wastes other than those mentioned in 16 03 03	
16 03 06	organic wastes other than those mentioned in 16 03 05	

Identification code	Description	Quantity (tons/year)
16 06 05	other batteries and accumulators	
17 02 03	plastic	
17 04 06	tin	
19 12 04	plastic and rubber	
20 01 34	batteries and accumulators other than those mentioned in 20 01 33	
20 01 36	discarded electrical and electronic equipment other than those mentioned in 20 01 21, 20 01 23 and 20 01 35	
20 01 39	plastics	
Total maximum:		18 450

1.4. / Hazardous non-metallic wastes that can be collected at site, involved in trade activities and can be pre-treated:

Identification code	Description	Quantity (tons/year)
02 01 08*	agrochemical waste containing hazardous substances	
03 01 04*	sawdust, shavings, cuttings, wood, particle board and veneer containing dangerous substances	
03 02 01*	non-halogenated organic wood preservatives	
03 02 02*	halogenated organic wood preservatives	
03 02 03*	wood preservatives containing metal organic compounds	
03 02 04*	inorganic wood preservatives	
03 02 05*	other wood preservatives containing hazardous substances	
04 01 03*	degreasing wastes containing solvents without a liquid phase	
04 02 14*	wastes from finishing containing organic solvents	
04 02 16*	dye stuffs and pigments containing hazardous substances	
04 02 19*	sludge from on-site effluent treatment containing hazardous substances	
06 01 01*	sulphuric acid and sulphurous acid	
06 01 02*	hydrochloric acid	
06 01 03*	hydrofluoric acid (hydrogen fluoride)	
06 01 04*	phosphoric and phosphorous acid	
06 01 05*	nitric acid and nitrous acid	
06 01 06*	other acids	
06 02 01*	calcium hydroxide	
06 02 03*	ammonium hydroxide	
06 02 04*	sodium and potassium hydroxide	
06 02 05*	other bases	
06 03 11*	solid salts and solutions containing cyanides	
06 05 02*	sludge from on-site effluent treatment containing hazardous substances	
06 06 02*	wastes containing hazardous sulphides	
06 07 01*	wastes containing asbestos from electrolysis	

Identification Code	Description	Quantity (tons/year)
06 07 02*	activated carbon from chlorine production	
06 07 03*	barium sulphate sludge containing mercury	
06 07 04*	solutions and acids, for example contact acid	
06 08 02*	waste containing hazardous chlorosilanes	
06 09 03*	calcium-based reaction wastes containing or contaminated with dangerous substances	
06 10 02*	waste containing hazardous substances	
06 13 01*	inorganic plant protection products, wood-preserving agents and other biocides.	
06 13 02*	spent activated carbon (except 06 07 02)	
06 13 04*	wastes from asbestos processing	
06 13 05*	soot	
07 01 01*	aqueous washing liquids and mother liquors	
07 01 03*	organic halogenated solvents, washing liquids and mother liquors	
07 01 04*	other organic solvents, washing liquids and mother liquors	
07 01 07*	halogenated still bottoms and reaction residues	
07 01 08*	other still bottoms and reaction residues	
07 01 09*	halogenated filter cakes and spent absorbents	
07 01 10*	other filter cakes and spent absorbents	
07 01 11*	sludge from on-site effluent treatment containing hazardous substances	
07 02 01*	aqueous washing liquids and mother liquors	
07 02 03*	organic halogenated solvents, washing liquids and mother liquors	
07 02 04*	other organic solvents, washing liquids and mother liquors	
07 02 07*	halogenated still bottoms and reaction residues	
07 02 08*	other still bottoms and reaction residues	
07 02 09*	halogenated filter cakes and spent absorbents	
07 02 10*	other filter cakes and spent absorbents	
07 02 11*	sludge from on-site effluent treatment containing hazardous substances	
07 02 14*	wastes from additives containing hazardous substances	
07 02 16*	waste containing hazardous silicones	
07 03 01*	aqueous washing liquids and mother liquors	
07 03 03*	organic halogenated solvents, washing liquids and mother liquors	
07 03 04*	other organic solvents, washing liquids and mother liquors	
07 03 07*	halogenated still bottoms and reaction residues	
07 03 08*	other still bottoms and reaction residues	
07 03 09*	halogenated filter cakes and spent absorbents	
07 03 10*	other filter cakes and spent absorbents	
07 03 11*	sludge from on-site effluent treatment containing hazardous substances	
07 04 01*	aqueous washing liquids and mother liquors	
07 04 03*	organic halogenated solvents, washing liquids and mother liquors	
07 04 04*	other organic solvents, washing liquids and mother liquors	
07 04 07*	halogenated still bottoms and reaction residues	
07 04 08*	other still bottoms and reaction residues	

Identification code	Description	Quantity (tons/year)
07 04 09*	halogenated filter cakes and spent absorbents	
07 04 10*	other filter cakes and spent absorbents	
07 04 11*	sludge from on-site effluent treatment containing hazardous substances	
07 04 13*	solid wastes containing hazardous substances	
07 05 01*	aqueous washing liquids and mother liquors	
07 05 03*	organic halogenated solvents, washing liquids and mother liquors	
07 05 04*	other organic solvents, washing liquids and mother liquors	
07 05 07*	halogenated still bottoms and reaction residues	
07 05 08*	other still bottoms and reaction residues	
07 05 09*	halogenated filter cakes and spent absorbents	
07 05 10*	other filter cakes and spent absorbents	
07 05 11*	sludge from on-site effluent treatment containing hazardous substances	
07 05 13*	solid wastes containing hazardous substances	
07 06 01*	aqueous washing liquids and mother liquors	
07 06 03*	organic halogenated solvents, washing liquids and mother liquors	
07 06 04*	other organic solvents, washing liquids and mother liquors	
07 06 07*	halogenated still bottoms and reaction residues	
07 06 08*	other still bottoms and reaction residues	
07 06 09*	halogenated filter cakes and spent absorbents	
07 06 10*	other filter cakes and spent absorbents	
07 06 11*	sludge from on-site effluent treatment containing hazardous substances	
07 07 01*	aqueous washing liquids and mother liquors	
07 07 03*	organic halogenated solvents, washing liquids and mother liquors	
07 07 04*	other organic solvents, washing liquids and mother liquors	
07 07 07*	halogenated still bottoms and reaction residues	
07 07 08*	other still bottoms and reaction residues	
07 07 09*	halogenated filter cakes and spent absorbents	
07 07 10*	other filter cakes and spent absorbents	
07 07 11*	sludge from on-site effluent treatment containing hazardous substances	
08 01 11*	waste containing paint or varnish containing organic solvents or other dangerous substances	
08 01 13*	Paint and varnish sludge containing paint or varnish containing organic solvents or other dangerous substances	
08 01 15*	aqueous sludge containing paint or varnish containing organic solvents or other dangerous substances	
08 01 17*	wastes from paint or varnish removal containing organic solvents or other dangerous substances	
08 01 19*	waste adhesives and sealants containing organic solvents or other dangerous substances	
08 01 21*	waste paint or varnish remover	
08 03 12*	waste ink containing hazardous substances	
08 03 14*	ink sludge containing dangerous substances	
08 03 16*	waste etching solutions	
08 03 17*	waste printing toner containing dangerous substances	
08 03 19*	disperse oil	

Identification code	Description	Quantity (tons/year)
08 04 09*	waste adhesives and sealants containing organic solvents or other dangerous substances	
08 04 11*	adhesive and sealant sludge containing organic solvents or other dangerous substances	
08 04 13*	aqueous sludge containing adhesives or sealants containing organic solvents or other dangerous substances	
08 04 15*	aqueous liquid waste containing adhesives or sealants containing organic solvents or other hazardous substances	
08 04 17*	rosin oil	
08 05 01*	waste isocyanates	
09 01 01*	water-based developer and activator solutions	
09 01 02*	water-based offset plate developer solutions	
09 01 03*	solvent-based developer solutions	
09 01 04*	leach fixer solutions	
09 01 05*	bleach solutions and bleach fixer solutions	
09 01 06*	Waste containing silver from on-site treatment of photographic waste	
09 01 11*	single-use cameras containing batteries included in 16 06 01 , 16 06 02 or 16 06 03	
09 01 13*	aqueous liquid waste from on-site reclamation of silver other than those mentioned in 09 01 06	
10 01 09*	sulphuric acid	
10 01 14*	Bottom ash, slag and boiler dust from co-incineration containing dangerous substances	
10 01 16*	Fly ash from co-incineration containing hazardous substances	
10 01 18*	wastes from gas cleaning containing hazardous substances	
10 01 20*	sludge from on-site effluent treatment containing hazardous substances	
10 01 22*	aqueous sludge from boiler cleansing containing dangerous substances	
10 02 07*	solid wastes from gas treatment containing hazardous substances	
10 02 11*	wastes from cooling-water treatment containing oil	
10 02 13*	sludge and filter cakes from gas treatment containing dangerous substances	
10 03 17*	tar-containing wastes from anode manufacture	
10 03 19*	flue-gas dust containing dangerous substances	
10 03 21*	other particulates and dust (including ball-mill dust) containing dangerous substances	
10 03 23*	sludge and filter cakes from gas treatment containing dangerous substances	
10 03 25*	sludge and filter cakes from gas treatment containing dangerous substances	
10 03 27*	wastes from cooling-water treatment containing oil	
10 03 29*	Wastes from treatment of salt slags and black drosses containing hazardous substances	

Identification code	Description	Quantity (tons/year)
10 04 04*	flue-gas dust	
10 04 05*	other particulates and dust	
10 04 06*	solid waste from gas treatment	
10 04 07*	sludge and filter cakes from gas treatment	
10 04 09*	wastes from cooling-water treatment containing oil	
10 05 03*	flue-gas dust	
10 05 05*	solid waste from gas treatment	
10 05 06*	sludge and filter cakes from gas treatment	
10 05 08*	wastes from cooling-water treatment containing oil	
10 06 03*	flue-gas dust	
10 06 06*	solid waste from gas treatment	
10 06 07*	sludge and filter cakes from gas treatment	
10 06 09*	wastes from cooling-water treatment containing oil	
10 07 07*	wastes from cooling-water treatment containing oil	
10 08 12*	tar-containing wastes from anode manufacture	
10 08 15*	flue-gas dust containing dangerous substances	
10 08 17*	sludge and filter cakes from flue-gas treatment containing hazardous substances	
10 08 19*	wastes from cooling-water treatment containing oil	
10 09 05*	casting cores and moulds which have not undergone pouring containing hazardous substances	
10 09 07*	casting cores and moulds which have undergone pouring containing hazardous substances	
10 09 09*	flue-gas dust containing dangerous substances	
1009 11*	other particulates containing dangerous substances	
10 09 13*	waste binders containing hazardous substances	
10 09 15*	waste crack-indicating agent containing dangerous substances	
10 10 05*	casting cores and moulds which have not undergone pouring containing hazardous substances	
10 10 07*	casting cores and moulds which have undergone pouring containing hazardous substances	
10 10 09*	flue-gas dust containing dangerous substances	
10 10 11*	other particulates containing dangerous substances	
10 10 13*	waste binders containing hazardous substances	
10 10 15*	waste crack-indicating agent containing dangerous substances	
10 11 09*	waste preparation mixture before thermal processing containing dangerous substances	
10 11 11*	waste glass in small particles and glass powder containing heavy metals (e.g. from cathode ray tubes)	
10 11 13*	glass-polishing and -grinding sludge containing dangerous substances	
10 11 15*	solid wastes from flue-gas treatment containing hazardous substances	
10 11 17*	sludge and filter cakes from flue-gas treatment containing hazardous substances	
10 11 19*	solid wastes from on-site effluent treatment containing hazardous substances	

Identification code	Description	Quantity (tons/year)
10 12 09*	solid wastes from gas treatment containing hazardous substances	
10 13 09*	wastes from asbestos-cement manufacture containing asbestos	
10 13 12*	wastes from gas treatment containing hazardous substances	
11 01 05*	pickling acids	
11 01 06*	acids not otherwise specified	
11 01 07*	pickling bases	
11 01 08*	phosphatising sludge	
11 01 09*	sludge and filter cakes containing hazardous substances	
11 01 11*	aqueous rinsing liquids containing hazardous substances	
11 01 13*	degreasing wastes containing hazardous substances	
11 01 15*	eluate and sludge from membrane systems or ion exchange systems containing dangerous substances	
11 01 16*	saturated or spent ion exchange resins	
11 01 98*	other wastes containing hazardous substances	
11 02 02*	sludge from zinc hydrometallurgy (incl. jarosite, goethite)	
11 02 05*	wastes from copper hydrometallurgical processes containing hazardous substances	
11 02 07*	other wastes containing hazardous substances	
11 03 01*	waste containing cyanide	
11 03 02*	other wastes	
11 05 03*	solid waste from gas treatment	
11 05 04*	spent flux	
12 01 06*	mineral-based machining oils containing halogens (except emulsions and solutions)	
12 01 07*	mineral-based machining oils free of halogens (except emulsions and solutions)	
12 01 08*	machining emulsions and solutions containing halogens	
12 01 09*	machining emulsions and solutions free of halogens	
12 01 10*	synthetic machining oils	
12 01 12*	spent waxes and fats	
12 01 14*	machining sludge containing dangerous substances	
12 01 16*	waste blasting material containing hazardous substances	
12 01 19*	readily biodegradable machining oil	
12 01 20*	spent grinding bodies and grinding materials containing dangerous substances	
12 03 01*	aqueous washing liquids	
12 03 02*	steam degreasing wastes	
13 01 01*	hydraulic oils, containing PCBs	
13 01 04*	chlorinated emulsions	
13 01 05*	non-chlorinated emulsions	
13 01 09*	mineral-based chlorinated hydraulic oils	
13 01 10*	mineral based non-chlorinated hydraulic oils	
1301 11*	synthetic hydraulic oils	
13 01 12*	readily biodegradable hydraulic oils	

Identification code	Description	Quantity (tons/year)
13 01 13*	other hydraulic oils	
13 02 04*	mineral-based chlorinated engine, gear and lubricating oils	
13 02 05*	mineral-based non-chlorinated engine, gear and lubricating oils	
13 02 06*	synthetic engine, gear and lubricating oils	
13 02 07*	readily biodegradable engine, gear and lubricating oils	
13 02 08*	other engine, gear and lubricating oils	
13 03 01*	insulating or heat transmission oils containing PCBs	
13 03 06*	mineral-based chlorinated insulating and heat transmission oils other than those mentioned in 13 03 01	
13 03 07*	mineral-based non-chlorinated insulating and heat transmission oils	
13 03 08*	synthetic insulating and heat transmission oils	
13 03 09*	readily biodegradable insulating and heat transmission oils	
13 03 10*	other insulating and heat transmission oils	
13 04 02*	bilge oils from jetty sewers	
13 05 01*	solids from grit chambers and oil/water separators	
13 05 02*	sludge from oil/water separators	
13 05 03*	interceptor sludge	
13 05 06*	oil from oil/water separators	
13 05 07*	oily water from oil/water separators	
13 05 08*	mixtures of wastes from grit chambers and oil/water separators	
13 07 01*	fuel oil and diesel	
13 07 02*	gasoline	
13 07 03*	other fuels (including mixtures)	
13 08 01*	desalted sludge or emulsions	
13 08 02*	other emulsions	
13 08 99*	wastes not otherwise specified	
14 06 01*	chlorofluorocarbons, HCFC, HFC	
14 06 02*	other halogenated solvents and solvent mixtures	
14 06 03*	other solvents and solvent mixtures	
14 06 04*	sludge or solid wastes containing halogenated solvents	
14 06 05*	sludge or solid wastes containing other solvents	
15 01 10*	packaging containing residues of or contaminated by hazardous substances	
1501 11*	metallic packaging containing a hazardous solid porous matrix (for example asbestos), including empty pressure containers	
15 02 02*	absorbents, filter materials (including oil filters not otherwise specified), wiping cloths, protective clothing contaminated by dangerous substances	
16 01 08*	components containing mercury	
16 01 09*	components containing PCBs	
16 01 11*	Friction pad containing asbestos	
16 01 13*	brake fluids	
16 01 14*	antifreeze fluids containing hazardous substances	
16 03 03*	inorganic wastes containing hazardous substances	

Identification code	Description	Quantity (tons/year)
16 03 05*	organic wastes containing hazardous substances	
16 05 04*	gases in pressure containers (including halons) containing dangerous substances	
16 05 06'	laboratory chemicals consisting of or containing dangerous substances including mixtures of laboratory chemicals	
16 05 07*	discarded inorganic chemicals consisting of or containing dangerous substances	
16 05 08*	discarded organic chemicals consisting of or containing dangerous substances	
16 06 06*	separately collected electrolyte from batteries and accumulators	
16 07 08*	oil-containing waste	
16 07 09*	other waste containing hazardous substances	
16 08 02*	Spent catalysts containing dangerous transition metals or dangerous transition metal compounds	
16 08 05*	spent catalysts containing phosphoric acid	
16 08 06*	spent liquids used as catalysts	
16 08 07*	spent catalysts contaminated with hazardous substances	
16 09 01*	permanganates, e.g. potassium permanganate	
16 09 02*	chromates, e.g. potassium chromate, potassium or sodium dichromate	
16 09 03*	peroxides, e.g. hydrogen peroxide	
16 09 04*	oxidising substances, not otherwise specified	
16 1001*	aqueous liquid wastes containing hazardous substances	
16 10 03*	aqueous concentrates containing dangerous substances	
16 11 01*	carbon-based linings and refractories from metallurgical processes containing dangerous substances	
16 11 03*	Other linings and refractories from metallurgical processes containing dangerous substances	
1611 05*	linings and refractories from non-metallurgical processes containing dangerous substances	
17 01 06*	mixtures of, or separate fractions of concrete, bricks, tiles and ceramics containing dangerous substances	
17 02 04*	glass, plastic and wood containing or contaminated with dangerous substances	
17 03 01*	bituminous mixtures containing coal tar	
17 03 03*	coal tar and tarred products	
17 05 03*	soil and stones containing dangerous substances	
17 05 05*	dredging spoil containing dangerous substances	
17 05 07*	track ballast containing dangerous substances	
17 06 01*	insulation materials containing asbestos	
17 06 03*	other insulation materials consisting of or containing hazardous substances	
17 06 05*	construction materials containing asbestos	
17 08 01*	gypsum-based construction materials contaminated with dangerous substances	
17 09 01*	construction and demolition wastes containing mercury	
17 09 02*	construction and demolition wastes containing PCB (for example PCB-containing sealants, PCB-containing resin-based floorings, PCB-containing sealed glazing units, PCB-containing capacitors)	

Identification code	Description	Quantity (tons/year)
17 09 03*	other construction and demolition wastes (including mixed wastes) containing hazardous substances	
18 01 03*	wastes whose collection and disposal is subject to special requirements in order to prevent infection	
18 01 06*	chemicals consisting of or containing hazardous substances	
18 01 08*	cytotoxic and cytostatic medicines	
19 01 10*	spent activated carbon from flue-gas treatment	
1901 11*	bottom ash and slag containing dangerous substances	
19 08 06*		
19 08 10*	grease and oil mixture from oil/water separation other than those mentioned in 19 08 09	
1908 11*	sludge containing dangerous substances from biological treatment of industrial waste water	
19 08 13*	sludge containing hazardous substances from other treatment of industrial waste water	
19 10 03*	off-light fraction and dust containing dangerous substances	
19 10 05*	other fractions containing hazardous substances	
1912 06*	wood containing dangerous substances	
19 12 11*	other wastes (including mixtures of materials) from mechanical treatment of waste containing hazardous substances	
20 01 13*	solvents	
20 01 14*	acids	
20 01 15*	alkalis	
20 01 17*	photographic chemicals	
20 01 19*	plant protection product	
20 01 21*	fluorescent tubes and other mercury-containing waste	
20 01 26*	oil and fat other than those mentioned in a 20 01 25-tÖI	
20 01 27*	paint, inks, adhesives and resins containing dangerous substances	
20 01 29*	detergents containing hazardous substances	
20 01 31*	cytotoxic and cytostatic medicines	
20 01 37*	wood containing dangerous substances	
Maximum total:		6 000

1.5/J Hazardous metal or metal-containing waste that can be collected at site or involved in trade activities:

Identification code	Description	Quantity (tons/year)
06 03 15*	metal oxide containing heavy metals	
06 03 13*	solid salts and solutions containing heavy metals	
06 04 03*	wastes containing arsenic	
06 04 04*	wastes containing mercury	
06 04 05*	wastes containing other heavy metals	
10 03 04*	primary production slags	
10 03 08*	salt slags from secondary production	
10 03 09*	black drosses from secondary production	

Identification code	Description	Quantity (tons/year)
10 04 01*	slags from primary and secondary production	
10 04 02*	dross and skimming from primary and secondary production	
10 08 08*	salt slag from primary and secondary production	
10 08 10*	dross and skimming that are flammable or emit, upon contact with water, flammable gases in dangerous quantities	
1012 11*	wastes from glazing containing heavy metals	
12 01 18*	metal sludge (grinding, honing and lapping sludge) containing oil	
16 01 07*	oil filter	
16 01 21*	hazardous components other than those mentioned in 16 01 07 to 16 01 11 and 16 01 13 and 16 01 14	
16 02 09*	transformers and capacitors containing PCBs	
16 02 10*	discarded equipment containing or contaminated by PCBs other than those mentioned in 16 02 09	
16 02 11*	discarded equipment containing chlorofluorocarbons, HCFC, HFC	
16 02 13*	discarded equipment containing hazardous components ⁷ other than those mentioned in 16 02 09 to 16 02 12	
16 02 15*	hazardous material removed from discarded equipment	
16 03 07*	metallic mercury	
16 06 01*	lead batteries	
16 06 02*	nickel-cadmium batteries	
16 06 03*	mercury-containing batteries	
17 04 09*	metal waste contaminated with hazardous substances	
17 04 10*	cables containing oil, coal tar and other dangerous substances	
20 01 23*	discarded equipment containing chlorofluorocarbons	
20 01 33*	batteries and accumulators included in 16 06 01, 16 06 02 or 16 06 03 and unsorted batteries and accumulators containing these batteries	
20 01 35*	discarded electrical and electronic equipment other than those mentioned in 20 01 21 and 20 01 23 containing hazardous components	
	Maximum total:	3 555

1.6. / To the extent of quantities indicated in Sections 1.4. / and 1.5. / the hazardous waste permitted to recovery or reuse at site from among the hazardous waste allowed to be collected at site and involved in trading activities:

Identification code	Description	Quantity (tons/year)
06 03 15*	metallic oxides containing heavy metals	3 555
06 04 05*	wastes containing other heavy metals	3 555
07 06 04*	other organic solvents, washing liquids and mother liquors	

Identificati on code	Description	Quantity (tons/year)
10 04 01*	slags from primary and secondary production	3 555
10 04 02*	dross and skimming from primary and secondary production	3 555
15 01 10*	packaging containing residues of or contaminated by dangerous substances	
16 02 13*	discarded equipment containing hazardous components (16) other than those mentioned in 16 02 09 to 16 02 12	3 555
16 03 03*	inorganic wastes containing dangerous substances	
16 1001*	detergents containing dangerous substances	
20 01 29*	discarded electrical and electronic equipment other than those mentioned in	
20 01 35*	slags from primary and secondary production	3 555
	Maximum total:	4 350

2.1.1 I delete the second paragraph after the R codes with the heading "2/ Permitted waste management activity:" and it will be replaced with the following sentence:

In the 5 warehouses the pre-treatment and utilisation of the waste delivered from different industrial plants takes place.

2.2.1 The following is added to the Section of the Permit with the heading "2/ Permitted waste management activity:"

The technology ensuring the performance of the activity will be installed in a 240 m² hall (hall V) within the site. The hall is an open concept one-storey part of the hall with a watertight floor.

Utilization of the cathode sludge:

The incoming cathode sludge contains a mixture of oxides of Co, Ni, Mn and Li and an organic solvent (NMP).

Following unloading, the first step is to remove the supernatant aqueous / solvent part which is stored in an IBC tank until it is handed over to the licensed operator. The remaining sludge waste is fed into the electric drying oven with the help of a loader and trays which have been designed specially for this purpose, where the operating temperature does not exceed 350 °C. The organic matter released from the sludge (N-methyl-2-pyrrolidone) is recovered by means of a water-cooled condenser, which thus partly contains water. After the waste status ceases, the metal oxide power remaining in the drying oven is stored as a product in big-bags at the site and then it is shipped in 40 containers to a processing company, where it is used to produce cathode raw material for battery production, thus it is returned to the production cycle.

In the drying ovens, an inert, oxygen-free medium is produced during the process by the addition of nitrogen gas, thus avoiding ignition of the organic solvent.

The boiler and condenser are equipped with a safety valve that regulates the pressure in the system. Any NMP fumes passing here are led to the open air by means of a fan through an air duct.

2.3. / The following is added to the Section of the Permit with the heading “2.2. / Tangible assets.”:

- tray loading system;
- 2 electrically functioning drying ovens;
- 2 steam condensers;
- 1 condensate collection tank (50 litres);
- 1 piece of nitrogen supply equipment;
- 1 cooling water circulation and recooling system;
- 1 compressor and the associated vacuum pump.

3.1. / I complete the Section of the Permit under the heading “3. / Regulations concerning the performance of the permitted activity” with the following regulations:

31. The basic application, related to the stationary sources of atmospheric pollution included in the scope of Government Decree 306/2010 (XII. 23.) *on air protection* [hereinafter referred to: Government Decree 306/2010. (XII. 23.)], prescribed in subsection (1) of section 31 shall be fulfilled with the content according to Annex 4.
32. A point source operating permit must be get for the air pollution source, in accordance with subsection (1) of Section 22 of the Government Decree 306/2010. (XII. 23.) with the content according to Annex 5.

Deadline: 30 days before the start of operation.

/ Gödöllő District Office of the Government Office of Pest County Department of Public Health has contributed to the modification of the Permit in its Public Health Resolution number PE-07 / NEO / 9186-2 / 202Q with the following regulations:

1. The destruction of health pests shall be ensured at least twice a year at municipal solid waste treatment facilities.
2. The exposure to asbestos of workers must be reduced, so that the asbestos-containing waste listed in the application must only be collected and transported in properly sealed packaging, legibly and in a container labelled in a language that can be understood by the workers. The employer must provide training for workers exposed to asbestos.
3. In the special container containing hazardous waste, the yellow - risk of infection - colour code and the international biohazard sign according to the Annex 1 of the 12/2017. (VI.12.) Regulation of the EMMI must be used. The colour code and mark must be clearly visible. It is forbidden to open the sealed container containing special hazardous waste until the waste has been disinfected or incinerated.,

/ In its resolution no. 35100/16974-1/2020, the Disaster Management Authority Department of the Metropolitan Disaster Management Directorate (hereinafter referred to: FKI-KHO) agreed to the modification of the Permit with the following conditions:

1. During the performance of the activity, the pollution of the environment and groundwater must happen in such a way as not to pollute and damage the soil and the groundwater, and regarding the groundwater and the geological environment the activity shall not cause quality deterioration exceeding the contamination limit set out in the 6/2009 (IV. 14.) KvVM-EüM-FVM joint decree (B) *on the measurement of the pollutions and the limit values required for the protection of the geological environment and groundwater against pollution.*

2. During the performance of the activity, the quality of the geological medium and groundwater must not be endangered, the regulations of the 219/2004. (VII. 21.) Government Decree [hereinafter referred to as the: 219/2004. (VII. 21.) Government Decree] *on the groundwater protection* must be fully complied with, and special attention should be paid to ensuring that the groundwater and the geological medium are not polluted.
3. Pursuant to the section 8 of 219/2004. (VII. 21.) Government Decree, the activity may be carried out only with environmental preventive measures by applying the best available technique or the most efficient solution according to the separate legal regulation;

must take place under controlled conditions;

it must be done in such a way that in the long run it does not endanger the good condition of the groundwater and the fulfilment of environmental objectives.

4. The storage area and the collection container must be suitable for collecting waste in such a way as to exclude environmental pollution.
5. The collection and maintenance of collection vessels, containers, salvage and pavings must be carried out regularly.
6. Regular inspection and maintenance of the technical protection of the facilities being a potential source of danger to the geological medium and groundwater in the area of the site shall be ensured.
7. Hazardous waste must be collected separately in a sealable container with a rim, with a watertight design and a suitable (oil / acid / alkali) chemical enclosure, placed in a full-volume salvager.
8. The regulations of 219/2004 (VII. 21.) Government Decree must be complied with regarding the dangerous substances.
9. The regular maintenance and cleaning of machinery and transport vehicles must be carried out at premises having the authorisation in order to avoid environmental pollution. Repairs, maintenance and cleaning of machines and vehicles are prohibited at the site.
10. In case of extraordinary events occurring during the performance of the activity, following the regulations Government Decree 90/2007, (IV. 26.) *on the procedure of the prevention and elimination of environmental damage*, and Government Decree 219/2004. (VII. 21.), the professional remediation works must be started without delay, and the water authority must be notified immediately of the event and the measures taken, as well as the results thereof.
11. In the event of a damage (calamity) that may occur during the performance of the activity, the maximum protection of the geological medium and groundwater must be ensured, its elimination and the restoration of the original condition of the area must be ensured by the Applicant.
12. Regular cleaning of paved surfaces must be provided in order to avoid contamination of rainwater.
13. The quality of waste water discharged into the public sewers must comply with Annex 4 of the Regulation of the Ministry of Environment and Water 28/2004 (XII. 25.) on the limit value for discharges of water pollutants and certain rules for their application.

4.3. / In its position statement no. 36340/1219-2/2020, the Disaster Management Directorate of Pest County, Gödöllő Disaster Management Office gave its agreement to the performance of the activity regarding the hazardous waste management activities without restrictions.

In case of voluntary non-compliance with the above requirements, until the deadline, or in due time, the provisions of section 133 and section 74 of CL of 2016 on *General Administrative Procedure* [hereinafter referred to: the Ákr.] shall govern.

If thlf the Department of Environmental Protection, Nature Conservation and Mining Supervision of the Pest County Government Office [hereinafter referred to: Environmental Protection Authority] establishes that the applicant included incorrect information in the application, the conditions for granting the permit no longer exist, the Licence Holders shall terminate the authorized activity or in a way different from what is specified in the permit, and applies the legal consequences contained in subsection (1) of (2) of section 84 of the Ht.

Should the License Holder violate any provisions of the statutes on waste management, any directly applicable legal acts of the EU or an official decision, or should the License Holder carry out any waste management activities subject to official permit, consent, registration, or reporting without having obtained the mentioned permit, consent or without registration or reporting or contrary to the same, or fails to inform the environmental protection authority or this information is improperly made regarding the production or development of any by-products, or uses, distributes or stores any waste as a product or by-product, the District Office shall oblige the License Holder to pay the imposed **waste management fines** in accordance with Section 86 (1) of the Act on Waste.

It is concurrently established that the License Holder shall be obliged to pay HUF 837 500 as administration service fees for the current action. Hereby it is established that the administration service fees have been duly paid.

There is no appeal against my decision, it becomes final with the notification, an administrative litigation can be filed against it - with reference to the violation - within 30 days of the notification, addressed to the Budapest Regional Court but submitted to the Environmental Protection Agency in 3 copies in writing or, in electronic form in the case of applicants, subject to electronic contact. The court shall adjudicate the case out of court, at the request of either party or, if it deems necessary, hold a hearing.

In accordance with Section 9 of Act CCXXII of 2015 on the *General Rules of Electronic Administration and Trust Services* [hereinafter referred to: E-Administration Act], the business organization and the legal representative of the client are obliged to provide electronic administration, thus they are obliged to submit their application electronically using the form submission support service through the webpage <https://e-kormanyablak.kh.gov.hu/>.

REASONING

In his application received on 2 November 2020, the License Holder requested the Modification of the Permit from the Environmental Protection Authority regarding the extension of the identification codes, the determination of the amount of hazardous and non-hazardous waste that can be collected, pre-treated and recovered, as well as the introduction of new waste management technology.

Following the examination of the application and the inspection of the site on 19 November 2020, the Environmental Protection Authority determined that the License Holder's activities, complying with the provisions of the Permit and this decision, still do not endanger the environment, and these activities are in accordance with Sections 4 and 6 of CLXXXV. of 2012 on *Wastes* [hereinafter referred to: the "Ht"].

The amount of hazardous and non-hazardous waste that can be accepted for collection, pre-treatment and recovery has been determined in one amount in case of each of the tables in Chapter 1, taking into consideration that, according to the License Holder's declaration, it is not possible to determine the quantity by type of waste in view of the changing market conditions.

The technology which is already available at the site is suitable for the treatment of new types of waste.

In its resolution no 35100 / 16974-1 / 2020., the FKI-KHO agreed to the modification of the Permit in accordance with the provisions of the operative part. He reasoned his position statement as follows:

The applicant authority contacted the FKI-KHO relevant to the case concerned and in accordance with Section 55 (1) of the Act CL of 2016 on the general public administration procedures [hereinafter referred to: the Ákr. (act on general public administration procedures)] as well as pursuant to Sections 58., 59., 60. and 61 of Annex 1, Table 19 of the Government Decree 531/2017 (XII. 29.) on the designation of competent authorities acting on the basis of certain overriding reasons in the public interest.

After review of the permit request documentation drawn up by the Applicant on 26 October 2020, 2018 attached to the competent authority's request and the data available for me, I have made the decision set forth in the ruling part of this instrument, taking the followings into consideration.

Water supply of the site and communal sewage disposal are ensured through the public utility network. In the course of the licensed activity process waste will not be produced. Rainwater from the paved surface is drained into the rainwater drainage system of the site, which is operated by the Lessor of the property. The incoming waste will be processed in a way excluding any contact with rainwater. The technological equipment is operated inside a covered building. The supplement to the recovery activity is mainly aimed at the separation of the metal oxide suspension (cathode sludge), which will be installed in a hall with a surface area of 240 m² (hall V) within the site. The hall is supported with a watertight floor.

The facility concerned does not affect any high stage riverbed defined in accordance with Section 12 (a), Annex 1, of the Act LVII of 1995 on water management, and it does not affect any high stage riverbed, waterside, or the use and exploitation of any area jeopardised by welling-up water or waterflows, as well as the rules relevant to the order and content of high stage riverbed maintenance planning in accordance with Section 1. (11) of the Government Decree 83/2014. (III. 14.).

The area concerned does not affect any water base designated by a valid and final decision in accordance with the Government Decree 123/1997 (VII. 18.) on the protection of water bases, prospective water basis and water facilities supplying the potable/drinking water.

In accordance with section 8 of in the Government Decree 219/2004 (VII.21), in order to ensure the good condition of groundwater, activities must only be carried out in a way that should not endanger the good condition of groundwater and the fulfilment of environmental objectives in the long run.

The official decision was made with the consideration of Government Decree 147/2010 (IV.29.) on the general rules on activities and facilities intended to water utilisation, protection, and controlling of water caused damages, the Government Decree 219/2004 (VII.21) as well as the Government Decree 72/1996 (V.22) on exercising the official power in the field of water management, and Act UH of 1995 on general rules for the protection of the environment.

This competent authority opinion has been issued considering the Section 55 of the act on general public administration procedures.

My competency is established in accordance with sections 58. and 59 of Annex 1, Table 19 of Government Decree no.531/2017 (XII. 29.) on the designation of competent authorities acting on the basis of certain overriding reasons in the public interest.

Individual remedy is precluded in accordance with Section 55 (4) of the act on general public administration procedures.

Scope of duties and authorities of the FKI-KHO is regulated by Section 1 (1) of the Government Decree 72/1996. (V. 22) on the practice of official water management powers, Section 10 (1) paragraph 2 of the Government Decree 223/2014. (IX 4.) on the appointment of organisations implementing water directorate, official water and water protection related duties [hereinafter referred to as the: Government Decree 223/2014. (IX 4.)] while the competence of the same is governed by Section 2, Annex 2 of the Government Decree".

Regarding the hazardous waste management activities, the Pest County Directorate For Disaster Management, Gödöllő Disaster Management Agency has consented to the performance of licensed activities in its opinion report as competent authority ref. No.:36340/1219- 2/2020. without any further provisions. The competent

authority reasoned its opinion with the following:

The Client submitted its application for the licensing of hazardous waste management activities at the Pest County Government General Department for Office Environmental Protection, Nature Conservation and Mining Supervision [hereinafter referred to as the authority]. The authority forwarded the competent authority's request prepared on 12 November 2020, the application and the attachments to my competent authority.

My competent authority performed the disaster management inspection of environmental safety in accordance with the 57th line of Annex 1 Table 19 of the Government Decree 531/2017. (XII.29.) [hereinafter referred to as R] on the designation of certain authorities acting on overriding reasons relating to the public interest and the following was established:

- The Client operates the site in terms of waste collection in accordance with the attached documents in full compliance with the statutory requirements. The recovery activity will be complemented with the separation of the metal oxide slurry, which will take place in a hall building with the surface area of 240m². The hall is provided with a watertight floor. The separated waste is stored in IBC tanks and then it will be transported. The secondary raw material is stored in big bags. In accordance with the foregoing I consent to the modification of the waste management license relevant to the site registered under the topographical number above.

Section 55 (1) of the Act CL of 2016 (hereinafter referred to as the Act on General public administration procedures) shall be the legal ground for my competent authority opinion. My power is established by the "Other Matters" 57th line of Annex 1 Table 19 of the Government Decree 531/2017. (XII.29.) [hereinafter referred to as R] on the designation of certain authorities acting on overriding reasons relating to the public interest, while my competence is established by section 1 of BM (Ministry of the Interior) Regulation 43/2011 (XI. 30.) on the area of competence of disaster management offices, and of the and Annex 1 of the same regulation"

The Environmental Protection Authority included the resolutions of the authorities participating in the procedure and their reasonings in the Decision in accordance with Section 81 {1) of the Akr. Pursuant to Section 55 (4), there is no place for an independent legal remedy against the resolutions of the competent authorities, they can be challenged within the framework of a legal remedy against the decision.

In its public health resolution no. PE-07/NEO/9186- 2/2020, Pest County Government Office Gödöllő District Court Department of National Health has consented to the modification of the Permit in terms of the requirements in the ruling part of the decision, with the following reasoning:

„ Rodent and insect control at the site shall be ensured in accordance with Decree Annex 4 (Detailed presentations on the control of health pests) of NM Decree no. 18/1998 (VI. 3.) on the epidemiological measures necessary for the prevention of communicable diseases and epidemics.

Exposure of workers to asbestos should be reduced in accordance with Section 5 (2) of EüM Regulation no. 12/2006 on the protection of workers from the risks related to exposure to asbestos.

The treatment of special health hazardous waste is regulated by section 3 of EMMI Regulation no. 2/2017 (VI. 12.) on waste management activities related to the waste generated by its health service providers.

The documentation complies with the requirements of the following legislation, provided that the above requirements are fully complied with:

Act XI of 1991 on Health Authority and Administrative Activity.

Government Decree no. 201/2001 (X. 25.) on the quality requirements for drinking water and the control procedure,

Act XXV of 2000 on Chemical Safety,

- ITM Regulation no. 5/2020 (11.6.) on the protection of the health and safety of workers exposed to chemical risks,*

- Environmental Protection and Nature Conservation General Department
1072 Budapest, Nagy Diófa utca 10-12.*

- Telephone: (06-1)478-4400 Fax: (06-1)478-4520*

- E-mail: zoldhatosag@pest.gov.hu*

- Web: <http://www.kormanyhivatal.hu/hu/pest>*

- *EMMI Regulation no. 13/2017 (VI. 12.) on public health requirements regarding waste covered by the public waste management service, Government Decree no. 71/2015 (III. 30.) on the designation of bodies performing environmental and nature protection official and administrative tasks,*
- *Government Decree no. 253/1997 (XII. 20.) on national urban development and construction requirements,*
- *NM Regulation no. 18/1998 (VI. 3.) on epidemiological measures to prevent contagious diseases and epidemics,*
- *EüM Regulation no. 120/2006 (111.23.) on the protection of workers from the risks related to exposure to asbestos,*
- *EMMI Regulation no. 2/2017 (VI.12.) on waste management activities related to waste generated at the health care provider"*

The new technology developed in hall V, which is the subject of the modification request, requires the installation of 1 stationary air pollution point source, which will lead away a small amount of evaporating NMP if necessary. Air load resulting from an increase in freight or car traffic does not have to be taken into consideration. In connection with the establishment of the point source, I made a regulation, and by the fulfilling of this, the Licensee must apply for a point source operating license in a separate procedure.

Regarding air quality protection, the Environmental Protection Authority did not reveal any excluding factors precluding the maintenance of the provisions of the Permit and the modification of the Permit.

There is no building to be protected from noise in the presumed impact area of the site {-100 m). The closest property to be protected is located -125 m away.

The Environmental Protection Authority did not reveal any excluding factor concerning noise and vibration protection against the modification of the Permit.

site concerned does not affect any ex lege protected natural areas in accordance with Section 23 (2) of the Act LIII of 1996 on nature conservation and in accordance with the conservation of protected natural habitats of national importance under a separate statute. Additionally, the property concerned is not a part of the Natura 2000 network specified by the Decree 14/2010 (V.11) on lands affected by nature conservation areas of community interest and the Government Decree 275/2004 (X. 8.) on the nature conservation areas community interest, additionally, the land does not affect any protected surface zones of caves in accordance with Decree 16/2009 (X.8) on designation of protected surface zones of caves. *The national ecological network covered by the Act CXXXIX of 2018 on the urban development plan of Hungary and some of its priority areas does not include any site.*

I would like to draw your attention to the fact that pursuant to Section 5 (1) of the Tvt., "It is the duty of all natural and legal persons and other organizations to protect natural values and areas. For this reason, to the extent expected of them, they are obliged to contribute to the prevention of dangerous situations and damages, to the mitigation of the damages, to the elimination of their consequences, and to the restoration of the condition prior to the damage."

In accordance with the foregoing the Environment Protection Authority has not discovered any causes excluding the licensed activities in terms of landscape protection and nature conservation

The requested activity is covered by sections 107., 108. and 109. of Annex 3 of Government Decree no. 314/2005 (XII. 25.) on the *environmental impact assessment and the integrated environmental use permitting procedure*. A preliminary study was carried out regarding the activity, in which it was established that no significant environmental impact would be expected. In the decision PE-06 / KTF / 752-6 / 2018 terminating the preliminary examination procedure it is established that the capacities have not changed for scrap metal, non-hazardous waste recovery and hazardous waste recovery, thus it is not necessary to carry out a new preliminary examination.

The Environmental Protection Authority did not reveal any excluding factors from the point of view of complex environmental protection.

Taking the foregoing into consideration, the District Office has established that the acceptance of the request is not hindered in terms of environmental protection considerations therefore, thus, in accordance with Section 12 (2), Section 13 (2), Section 15 (2) and Section 62 (1) of the Ht. (Act of Waste), as well as the Sections 7 (2) and 9 (2) of the Government Decree 439/2012. on *registration of waste management activities and official licensing*, it has modified the Permit, taking into consideration the applicable waste management legislation as set out in the ruling part.

This Decision is grounded on sections 80 and 81 of the Ákr. (general administrative procedures), on the section 79 (4) as well as on the section 14 (3) of the Government Decree no. 439/2012. (XII. 29.), in addition to the foregoing legislations.

The administration fees of the proceedings have been established in accordance with the Decree 14/2015. (III. 31.) of the Ministry of Agriculture on the administrative service fees for environmental and nature protection authority procedures [hereinafter referred to as the FM Decree 14/2015. (III. 31.) Annex 1, Sections 4.6, .5., 7., 11. and 37.

The License Holder shall be obliged to pay the administrative service fees in accordance with Section 5 (3) of the FM Decree 14/2015. (III. 31.) The License Holder duly paid the administrative service fees.

An appeal against this decision is excluded, pursuant to section 116 (1) of the Ákr.

The possibility of judicial review of this decision is provided in section 114 (1) and section 112 (1).

The jurisdiction of the court was established by the Environmental Protection Authority on the basis of section 4 (1) and section 13 (1) - (3) of Act I. of 2017 on *Administrative Procedure* [hereinafter referred to: Kp.]. The place and time of filing the application is determined on the basis of section 39 (1) of the Kp. Information on the possibility of requesting a hearing is provided in section 77 of the Kp., according to which if neither party requests a hearing and the court does not consider it necessary, the court will make a decision out of court. The plaintiff may request a hearing in an application and the defendant in an indictment. In case of failure to do so, the time limit for making this request cannot be extended.

I would like to draw the attention of the Licence Holder to the fact, if someone violates any provisions of the statutes on waste management, any directly applicable legal acts of the EU or an official decision, or should the License Holder carry out any waste management activities subject to official permit, consent, registration, or reporting without having obtained the mentioned permit, consent or without registration or reporting or contrary to the same, or fails to inform the environmental protection authority or this information is improperly made regarding the production or development of any by-products, or uses, distributes or stores any waste as a product or by-product, shall be obliged by the District Office to pay the imposed **waste management fines**.

Furthermore, please, be advised that the failure to comply with the regulations or the failure to satisfy the provisions specified in the Decision properly the execution shall be ordered in accordance with Section 133 (1) of the general administrative procedure, additionally in accordance with Section 77 of the general administrative procedure **procedural fine shall also be levied**, the rate of which shall be minimum **10 thousand forints** and in the case of natural individuals it may be maximum 500 thousand forints and in the case of legal entities or entities without legal status the rate of such fine may be maximum **one-million forints**. The procedural fine may be imposed repeatedly even for the reoccurrence of the failure to perform the same obligations.

For your information, Section 9 (1) and Section 108 (5) of the Act CCXXII on the general rules of electronic administration and confidential services the client, organisation, body, agent etc. listed in Section 9 (1) shall be obliged to electronic administration.

An original of this Decision is forwarded for the information of the territorially competent disaster management directorate considering Section 31 (4) of the Government Decree 71/2005 (III.30) on

appointment of environmental protection and nature conservation authorities and administrative organisations [hereinafter referred to as 71/2015 (III.30.)].

Scope of duties and authorities of the District Office acting as environmental protection and nature conservation authority as well as jurisdiction is governed by the Government Decree 71/2015 (III.30.).

This decision becomes **final** without notice, due to the force of law, pursuant to section 82 (1) of the Ákr. The date of notification of the decision is the day on which it was delivered.

Budapest, 15. December 2020

in the name and on behalf of:
dr. Richárd Tárnái appointed government official

dr. Szabolcs Cserkúti sgd.
Managing Director

In witness whereof:
Served to: in accordance with the
administrator's instructions.
